

# Art Rosnovsky — Web Developer

Mill Creek, WA | (360) 513-6735 | [artem@rosnovsky.us](mailto:artem@rosnovsky.us) | [github.com/rosnovsky](https://github.com/rosnovsky)

## Objective

Web Developer with diverse expertise looking to leverage JavaScript and UX/UI skills as a frontend engineer to enhance and improve customer experience.

## Technical Skills

- **Front End:** JavaScript, React, HTML5, CSS3
- **Back End:** NodeJS, Express, MongoDB, MySQL, RESTful APIs
- **Dev tools/DevOps:** git, npm, webpack, Jest, Jira, AWS, Azure, CI/CD pipelines
- **CMS:** Wordpress, Adobe Experience Manager (AEM), Craft
- **Design & Media:** Responsive design, newsletter design, Adobe Photoshop, Illustrator, AfterEffects, Premiere Pro, Audition, Sketch; Video and Audio editing and production
- **Other:** single engine airplane pilot (student), podcaster of 13 years (5000+ subscribers)

## Work Experience

### Web Developer — Microsoft, Redmond, WA

Apr 2019 — Present

- Developed an interface as well as the backend server for an internal search application in C# & .NET Core, and MSSQL in the backend, and React client
- Expanded the prototype to production-ready application with advanced Azure Active Directory-based authentication, server and database performance tweaks, and responsive client interface.

### Web Developer — Transmark Logistics, Kent, WA

Oct 2018 — Mar 2019

- Designed and delivered key internal shipment and task management system
- Recovered over 40 minutes of productive time per user via dramatic UI improvements
- Led a team of two in development of frontend and backend system (Python, Flask, MySQL, Celery, RabbitMQ, jQuery, JavaScript, CSS, HTML)

### **Web Developer — Farmslist, Vancouver, WA**

Aug 2016 — Jan 2018

- Led UX/UI design and system architecture for the company
- Developed a variety of React front end elements, along with backend APIs for Node/Express and external API interfaces (Google Maps API)

### **Implementation Specialist — AT&T, Bothell, WA**

Apr 2017 — Sep 2018

- Implemented 100+ code and content items for AT&T MyServices website/mobile app
- Created and maintained dozens of pages with Adobe Experience Manager and Teamsite
- Tracked and fixed 100+ of defects across all platforms

### **Web Producer — Intel, Hillsboro, OR**

Dec 2016 — Apr 2017

- Successfully launched Intel's new Product catalog, using AEM, HTML/CSS, and Bootstrap
